

Press Release**EURONEXT AND HEGNAR MEDIA JOIN FORCES TO PROVIDE
WEBCAST SERVICES**

Oslo – 04 December 2019 – Euronext Corporate Services and Hegnar Media Videoproduksjon today announced a partnership to bring Euronext webcast services to the Norwegian market. Webcasts and webinar solutions are now part of new services offered by Oslo Børs, supported by Hegnar Media Videoproduksjon.

Euronext Corporate Services help private and public companies make the most effective use of financial markets by providing them with innovative solutions and tailor-made advisory services in Governance (iBabs), Compliance (InsiderLog), Communication (Company Webcast) and Investor Relations (Advisory and IR Solutions).

Hegnar Media Videoproduksjon is the market leader on streaming quarterly presentations for companies listed on Oslo Børs.

Oslo Børs will play a key role in offering the services of Euronext Corporate Services to the Norwegian Market.

– Webcast is part of this new offering from Oslo Børs that will help companies to improve their visibility and communication and support their journey on the capital markets. Hegnar Media, with their strong market position, is the right partner for us when we now enter the market for streaming presentations, says Håvard S. Abrahamsen, CEO of Oslo Børs.

Using the technology platform of Company Webcast, a subsidiary of Euronext Corporate Services, enables Hegnar Media Videoproduksjon to offer better streaming services and products to their clients.

– The partnership grants us the exclusive right to use the webcast platform and streaming player of Euronext. This will make it possible for us to improve our offering with higher quality streaming and more opportunities for our customers. We are fully focused on the Investor Relations streaming services, and together with Oslo Børs we are going to increase our market share in this market, as well as expand to other markets due to Company Webcast's unique technology to stream to internal networks, says Erlend Damon Stokke, leader of Hegnar Media Videoproduksjon.
